

NEW PRODUCT SHOWCASE

A new method of adaptation to
an already versatile system

IPEX is pleased to introduce our new metric x IPS (imperial pipe size) adapter coupling to our Duraplus Air-Line product offering. The adapter allows for easy connection between ABS, IPS size airline products and IPEX metric Duraplus ABS Air-Line system. The adapter is manufactured using a ductile industrial grade gray ABS to ensure durability, strength and safety when used in a compressed air application. The adapter is available from 1/2" x 20mm to 4" x 110mm for easy adaptation to and from existing ABS IPS outside diameter airline systems.

The new metric x IPS adapter adds to an already extensive variety of airline specific fittings that utilize a simple and efficient solvent cement jointing method

Dimensions

Size	Product Code	A (in)	B (in)	Z1 (in)	Weight (lbs)
1/2 x 20mm	337371	1.02	1.46	0.12	0.02
3/4 x 25mm	337372	1.22	1.61	0.12	0.03
1 x 32mm	337373	1.58	1.93	0.12	0.06
1-1/2 x 50mm	337374	2.32	2.64	0.12	0.14
2 x 63mm	337375	2.91	3.07	0.08	0.25
3 x 90mm	337376	4.21	4.13	0.12	0.78
4 x 110mm	337377	5.23	5.12	0.24	1.52

This adapter coupling may be solvent welded on to IPS size ABS airline pipe using an approved ABS solvent cement.
