**CERTIFICATE OF COMPLIANCE**

**REMOVAL OF HAZARDOUS SUBSTANCES (RoHS) FOR PVC, CPVC, MATERIALS**

Spears® Manufacturing Company certifies that its injection-molded and fabricated products are manufactured in the U.S.A. using the highest quality unplasticized polyvinyl chloride (UPVC) and unplasticized chlorinated polyvinyl chloride (UCPVC) compounds which are RoHS Compliant and are listed for potable water service by the National Sanitation Foundation (NSF®).

Spears® uses an unplasticized polyvinyl chloride (UPVC) compound having a cell classification of 12454. Additionally, Spears® uses an unplasticized chlorinated polyvinyl chloride (UCPVC) compound having a cell classification of 23447. Both compounds conform to ASTM Standard D1784.

These materials meet the requirements RoHS as they are free of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE)

A handwritten signature in black ink, appearing to read 'Gregory Peak', is written over a white background.
