

Declaration of conformity

We herewith declare that the polymer compounds used by +GF+ Piping Systems for the production of pipes, fittings and valves from PE, PP, PB, ABS, PVDF, PVC-U* and PVC-C do not contain

1. Cadmium and cadmium compounds
2. PBB (polybrominated biphenyls)
3. PBDE (polybrominated diphenyl ethers)
e.g. pentabromodiphenyl ether octabromodiphenyl ether
4. Chlorinated paraffin
5. Polychlorinated biphenyl (PCB)
6. Polychlorinated naphthalene
7. Tributyl tin and Triphenyl tin
8. Asbestos
9. Azo compounds
10. Mercury
11. Chromium VI
12. Lead (Pb)*

and that these substances are not added during production.

Therefore these materials are in full compliance with the EC directive 2002/95/EC.

Dr. Katrin Wallheinke
Head of Materials Technology

Michaela Lendl
Materials Engineer

* PVC-U - pipes, DEKADUR, include Pb-stabilizers less than 1,5% by weight.

Alternatively available: CaZn-stabilized PVC-U pipes, DEKADUR L-HP, with food approval.
