To Whom It May Concern:

**Ref: The Dodd Frank Act's Section 1502 on conflict minerals**

The Dodd–Frank Wall Street Reform and Consumer Protection Act (Pub.L. 111-203, H.R. 4173) was signed into U.S. federal law on July 21, 2010. Section 1502 lays out reporting obligations for companies that are publicly traded in the US and thus governed by the Securities & Exchange Commission (SEC). Section 1502 requires companies that make products for which 3TG metals (tantalum, tin, tungsten & gold) are necessary to the functionality or production of that product to report on the source of these materials if they are sourced from regions of conflict in and around the Democratic Republic of Congo. Although Accurate Plastics, Inc. is not a publically traded company, and therefore not directly subject to this law, we are providing this declaration to our customers to help them comply with the regulations of this law.

Accurate Plastics, Inc. does not use any of the aforementioned Conflict Minerals in the production of any of our Thermoset Laminate Products, nor do we condone purchases of such from the Democratic Republic of Congo-DRC and/or adjoining countries.

A handwritten signature in black ink, appearing to read 'JW', is positioned above the typed name of James Wilfong.
