Are ACRYLITE® acrylic sheets compliant with the European **REACH** directives?

Substances defined by Article 57 in Regulation (EC) No. 1907/2006 (Regulation of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals - **REACH**) and are listed in the so called Candidate list of SVHC (substances of very high concern) are neither used as raw materials nor as auxiliary materials in the manufacturing process of Evonik Cyro LLC acrylic sheet products.

Regarding raw materials and auxiliary materials used for the manufacturing of the Evonik Cyro LLC acrylic sheet products listed above, we furthermore do not expect any substance used in our process / products will be identified as a SVHC in the future.

All recommendations made herein are believed to be reliable. However, such recommendations are made without charge and without warranty, and on the express understanding that Evonik Cyro assumes no obligations in connection with any such recommendations.
