March 1, 2018

Dear Authorized GEHR Distributor,

Thank you for your inquiry regarding "Restriction of Hazardous Substances" (RoHS) which originated in Europe. The substances referenced in the RoHS Directive, in both the original and subsequent (Directive 2011/65/EU) versions of the legislation are not found in any of the resins we use for production of extruded stock shapes.

We will continue to review with our material/thermoplastic resin suppliers the conformance with the RoHS legislation.

Please feel free to contact me if you have any further questions.

A handwritten signature in black ink, appearing to read "D. DiPietro", written in a cursive style.

Dennis DiPietro
Vice President
GEHR Plastics, Inc.
