March 1, 2018

Dear Authorized GEHR Distributor,

Regarding your inquiry on EC Directive REACh (EC1907/2006), we would like to give you the following information:

REACh is a European Community Regulation on chemicals and their safe use. It deals with the **Registration, Evaluation, Authorization and Restriction of Chemical** substances. We are aware of REACh and its potential effects. As a downstream user we are not responsible for substance (pre-) registration.

We are in constant contact with our raw material suppliers and have requested the information regarding the registration of their substances, which we use for our production of stock shapes.

Polymers are not under REACh regulation and the monomer substances or other substances in the polymers will be (pre-) registered by our raw material suppliers or monomer manufacturers.

**We confirm that none of our products supplied to your company contains SVHC substances (ECHA, as amended on 1/17/18).**

Additional details about REACh can be obtained at [www.echa.europa.eu](http://www.echa.europa.eu)

Should you need any further information, please don't hesitate to contact us.

Very Truly,

A handwritten signature in black ink, appearing to read "Dennis DiPietro", written over a white background.

Dennis DiPietro

Vice President

GEHR Plastics, Inc.

Note: Due to possible changes in regulations, Gehr can only guarantee REACh compliance for the current calendar year. However, we are in constant contact with our suppliers who are aware of their individual compliance status.
