Re: Inquiry on IPEX products concerning warning requirements pursuant to the Safe Drinking Water And Toxic Enforcement Act Of 1986 ("Proposition 65")

---

Dear Sirs:

Thank you for your inquiry. IPEX strives to comply with all applicable laws and regulations where it conducts business. IPEX also takes the safety of its products, the health of its customers, and the health of the general public very seriously.

We are aware of the recent changes to the warning requirements imposed on businesses by Proposition 65, and the requirements are to come into force on August 30, 2018. We are currently reviewing our supply chain and our manufacturing process to ensure that we are in compliance with these new requirements. Once this business-wide initiative is completed, we will contact you to provide you with an update on its results.

Yours truly,

Prithu Mukhopadhyay, Ph.D.  
Senior Scientist
