**Re: European RoHS 2011/65/64**

To whom it may concern:

The RoHS directive aims to restrict certain dangerous substances commonly used in electronic and electronic equipment. Any RoHS compliant component is tested for the presence of Lead (Pb), Cadmium (Cd), Mercury (Hg), Hexavalent chromium (Hex-Cr), Polybrominated biphenyls (PBB), and Polybrominated diphenyl ethers (PBDE).

Weldon Adhesives products do not contain any of the restricted materials listed in the RoHS 2011/65/64 Directive.
