RE: NIBCO Product – Raw Material Information

To Whom It May Concern:

Currently, NIBCO can only offer a definitive statement of compliance for Conflict Materials (Dodd-Frank Act) for our Wrot Copper Fittings and Plastic Fittings (PVC/ABS/CPVC/PVDF/PP).

Please be advised that we do not offer anything other than a statement letter at this point in time. We do not have the details to report this information in the EICC format, currently.

At this time, we cannot offer any statement regarding any valves or cast copper alloy fittings.

NIBCO's efforts are ongoing as we research compliance for these products with our material suppliers. All we can provide is this assurance that NIBCO is actively pursuing a definitive response on this subject for all of our products, and hope to be able to offer a formal response in the near future.

Thank you and sorry we cannot provide more detail at this time.
