Not in compliance

Rulon® 142 in all its forms (S, RB, etc.) supplied by Saint-Gobain Performance Plastics in any form, is **not in compliance** with the European RoHS, JIG-A, and JIG-B legislation as of this date. There are no plans to make it compliant at this point, but Rulon LR can be used as an alternative in applications where Rulon 142 is used most often, with similar but not exact performance.
